

JigSaw Activity – *The Iliad*

Today you will be working with a partner on a JigSaw activity.

You may find the notes you just took helpful for this activity. However, please hand in your work before you exit today.

Each team will have one of the 15 pieces to the puzzle of the Iliad.

Read the information.

Look to the questions at the end of your section to be sure you understand what your section is about.

If you need to, you can Google more information.

The goal of your task is really to understand your part of the puzzle.

It must make sense so you can retell what you read.

You will be retelling what you learned about your section to the entire class.

You may retell in one of four ways:

- Skit
- Podcast
- Story book reading
- Mini-movie (trailer length)

Presentation must be ready to present in our next class session.

Leave supplies in class or email project to partner

Specifications

- Team of three
- One section of Iliad retold-with questions
- Begin reading and retelling today
- Finish your presentation in our next class session
- Story parts will be presented in order.
